Hi Rachel

I did not get a chance to talk to you yesterday but wanted to let you know a couple of things on this....please keep confidential.

I received a call from MaryLou on this upcoming call. She had some initial concern about the purpose of OEHHA being on the call. Her concern was that she did not think we were going to be able to change their mind on the toxicity determination.

I assured her that we were not intending to, but only to have them at the table to understand the regulatory issues that need to be addressed and to offer an opportunity to collaborate on the science if desired.

She was fine with that and felt that it would be good for OEHHA to be on the call to understand the impacts that these determinations have on the regulatory side.

Further I mentioned that it is EPA's goal to not be in the loop on approving labels with Prop 65 statements on them since they are not subject to FIFRA and we don't have the resources.

MaryLou understood and agreed....we just need to find a way to get there. This is additional burden on them too.

Also I understand the call is currently scheduled for the 15th. After reviewing my travel information I am not sure I will be coming in to the office on the 15th and have blocked that day off on my calendar, so I may need to task you to reschedule again....sorry about that.

Michael L. Goodis, P.E.

Director, Registration Division (RD)

Office of Pesticide Programs (OPP)

Anne Prichard call her boss wants us to work out the label issue first. I told her that the meeting with OEHHA was not about label process but making sure OEHHA knew that we are there to help with the information in our science reviews. Even knowing that, her boss wants to work out the labeling first.

I talked to Erin today and I will be drafting a one pager tomorrow on label process and a separate one pager for OEHHA. I have move the OEHHA meeting to May 15 and will sent us a meeting with

DPR.

I agree, seems like having him at the Prop 65 meeting should take priority.

My inclination would be to schedule things so that Mike can participate with California state people on Proposition 65.

Does that make sense to others too?

I also want to add that I like the idea of framing up the Proposition 65 issue with some talking points. That will help give things a 'map'.

Subject: Scheduling Prop 65 discussion and Bixafen DD Meeting

Hi Dan and Donna,

California has made a counter proposal for our meeting on Prop 65. They want the meeting at the same time as the Bixafen DD meeting. We can move the Bixafen meeting to the following week as we are waiting for additional information from the EFED. This would mean that Mike would not be present for the DD meeting on Bixafen. If we move the Bixafen meeting, Mike could be present for the meeting on Prop 65. OEHHHA wants everyone present including their Chief Counsel, Carol Monahan-Cummings. It looks like Erin and Bob are available this Thursday. I would like to draft some speaking points and pass around for discussion. Hope Johnson has a conflict. I will look for another PM or SR who could be on the like as well. I have contacted AD and am looking for someone to represent them as well. If RD-IO does not want to do it on Thursday, the next time that OEHAA and DPR are available while Mike is in the office is May 15 at 4 p.m. Otherwise, we could meet with OEHHA in Mike's absence on Tuesday, May 8 at 2:30 p.m. or Thursday, May 10 at 2:30.
